CONDENSATE POT

Mcneil Instruments is a leading condensate pot manufacturer, supplier and exporter to various countries globally. The condensate pots are made from superior quality materials and sold at competitive rates.

We provide a wide range of inexpensive CONDENSATE POT. There is a capture and storage of condensate. As a result, the numerous orifices stay clean and clutter-free. They are upstream from the instrument, and a bottom drain makes cleaning possible. The condensate pots can be made of a variety of materials. The primary purpose of a condensate or seal pot is to hold both foreign items and any liquid that condenses from vapor. This guards against metering system damage.

Types Of Condensate Seal Pot

- Condensate Pot Type Two Ports
- Condensate Pot Type Three Ports
- Condensate Pot Type Four Ports

Main Features – Condensate Pot

- Volume: 0.5 to 5 liters.
- Connections: Up to 6 taps.
- Connection Types: 1/4", 1/2", 1" NPT/BSPT, 600# RF/RTJ.
- Material: SS 304L, 316L, Carbon Steel, 16Mo-F11/P11, 6Mo.
- Compliance: Meets PED 2014/68/EU; <1L under Article 4.3.

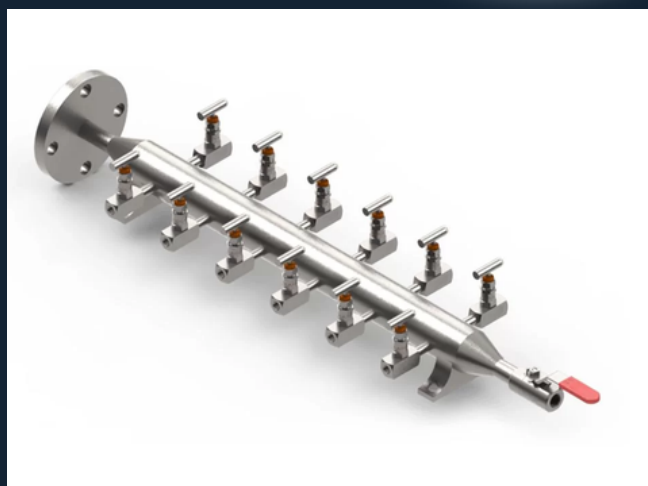

AIR HEADERS

We at Mcneil Instruments Inc. are one of the top manufacturers of Air Headers in India and offer good quality valves for a variety of applications.

The outlet ports can range from 4-way to 16-way, with inlet and drain connections available in various forms, such as flanged, coupling, ball valve, or needle valve, according to specific requirements. At Mcneil Instruments, clients can choose from a wide range of Air Header configurations and sizes, including 2", 3", and 4" in schedules 40, 80, and 160 (larger sizes are available upon request). Our standard material is SS316, or we can customize according to your specifications. All Air Headers are factory tested and conform to PED Module A SEP standards.

Types Of Air headers

- 4 Way Air Headers
- 6 Way Air Headers
- 8 Way Air Header
- 10 Way Air Header
- 12 Way Air Header
- 14 Way Air Header
- 16 Way Air Header
- Air Header Distributer
- Pressure Air Header
- Bar Stock Air Header

PIPE CLAMP

As a trusted **Pipe Clamp Manufacturer, Supplier, and Exporter in India**, Mcneil Instruments delivers high-quality pipe clamps tailored to diverse industrial needs. Our range includes **Hydraulic Pipe Clamps, Standard Tube Clamps, Heavy-Duty Tube Clamps**, and **Twin Tube Clamps**—all crafted to provide robust and reliable support for piping systems. With precise drilling, strong materials, and a commitment to excellence, our products set the standard in **durability and efficiency**.

Different Types of Clamps for Pipes

- Saddle Clamps
- Hose Clamps
- Tube Clamps
- Cushion Clamps
- Beam Clamps
- Split Ring Clamps
- Swivel Clamps
- Conduit Clamps
- Quick Release Clamps
- Strut Clamps
- T-Bolt Clamps
- Pipe Hangers

SYPHON TUBE/PIPE

As a trusted **Syphon Tube/Pipe Manufacturer, Supplier, and Exporter in India**, Syphon tubes, also known as siphon tubes or pipes, are simple yet effective devices used for transferring liquids between two containers at different levels.

Syphon Tube Specifications

- **Construction:** SS 304, SS 316, Carbon Steel, others on request.
- **Thread Connection:** M20, 3/8", 1/2" BSP/NPT, others on request.
- **Pressure Range:** 0 to 100 kg/cm², customizable.
- **Optional Features:** Male/Female connections, IBR approved, various shapes.
- **Material Options:** SS 304, 316, 316L, 310S, 317L, SS 6MO.
- **Pipe Sizes:** 3/8" NB & 1/2" NB (Sch 40, 80, 160).
- **Connection Type:** MxM, MxF, FxF.
- **Thread Size:** 3/8" or 1/2" BSP/NPT.
- **Pressure (Sch 40):** 135 bar at 400°C.
- **Types:** Q, O, Plate U, Straight U.

COPPER TUBE

Mcneil Instruments is renowned as one of the best copper tube manufacturers in India, delivering high-quality products to meet diverse industrial needs. As copper tube Copper Tube Suppliers and Copper Tube Exporters in India, Mcneil Instruments ensures top standards in our Copper Tube Manufacturer processes, adhering to stringent quality control measures.

With a commitment to excellence, we offer a wide range of copper tubes suitable for various applications, including plumbing, HVAC systems, and electrical installations

Copper Tube Specifications

- **Standards:** ASTM B68, B75, B280, B88, JIS H3300, EN1057, BS2871, DIN 1754/8905, IS2501.
- **Specifications:** ASTM B280, JIS H3300, AS/NZS1571, JIS3300-2006.
- **Material:** TU2, C1020T, C1100, C1220T, C14200, etc.
- **Outer Diameter:** 4mm to 150mm.
- **Wall Thickness:** 0.25mm to 8mm.
- **Length:** 1m to 6m or as required.
- **Cut Length:** Single/Double Random, custom lengths.
- **Types:** Seamless, Inner Grooved, Square, Finned Tubes

SNUBBER

As a leading snubbers manufacturer, supplier, and exporter, we specialize in providing high-quality snubber solutions tailored to meet your specific needs. With our expertise and dedication to quality, you can trust us to deliver superior snubbers that effectively protect your equipment from voltage spikes and transients.

Features

- **Test Pressure :-** 25 deg Room temperature
- **Pneumatic :-** Body – 420 kg / cm²
- **Gland Seal :-** Buna "N", VITON, PTFE
- **Material :-** A105, A276 SS304, A276 SS316, Monel
- **Finish :-** CS zinc plated and dichromated, SS – Natural

Applications of Snubbers

- **Power Electronics:** Protects semiconductors from voltage spikes.
- **Motor Drives:** Suppresses voltage spikes for smooth operation.
- **Switching Power Supplies:** Reduces EMI and boosts efficiency.
- **High-Voltage Equipment:** Safeguards transformers, breakers, and relays.

THERMOWELL

As a leading Thermowell manufacturer, supplier, and exporter, Thermowells are indispensable components in industrial temperature measurement applications, providing protection, accuracy, and longevity to temperature sensors in harsh process environments.

Types of Thermowells

- Straight Shank Thermowells
- Tapered Thermowells
- Flanged Thermowells
- Socket Weld Thermowells

Specifications

- **Process connection:** 1/2", 3/4" and 1" NPT
- **Bore size:** .260", .385"
- Straight, Stepped or Tapered designs
- One piece bar stock
- Wide selection of sizes, material and dimensions
- Stamped with date code, material and heat numbers

QUICK RELEASE COUPLING

Mcneil Instruments is the leading and best Quick Release Coupling manufacturers in India, Quick Release Coupling Supplier in India and worldwide. As a leading Quick Release Coupling supplier and Quick Release Coupling Exporter, Mcneil Instruments prioritizes quality and reliability in every component they produce.

Types of Quick Release Couplings

- Hydraulic Quick Release Couplings
- Pneumatic Quick Release Couplings
- Flat Face Quick Release Couplings
- Threaded Quick Release Couplings
- Ball and Sleeve Quick Release Couplings
- Single Shut-Off Quick Release Couplings
- Double Shut-Off Quick Release Couplings
- Dry Break Quick Release Couplings
- Camlock Quick Release Couplings
- Quick Release Couplings for Water Applications

FLUSHING RING

Mcneil instruments is a manufacturer, supplier and exporter of Flushing Ring, which are very useful in various applications in the big industries. The Flushing ring made in grade such as Monel, Inconel, Stainless Steel, Incoloy, Hastelloy. Flush Rings also are known as Drip Ring or Diaphragm Seal or Bleed Ring.

Types of Flushing Ring

- Liquid Flushing Rings
- Gas Flushing Rings
- Dual Flushing Rings

Advantages of Using Flushing Rings

- Enhanced Sealing Performance
- Extended Equipment Lifespan
- Improved Reliability
- Reduced Maintenance Costs
- Environmental Protection
